**FOR IMMEDIATE RELEASE****DIGI-NET RELEASES DIGICHAT AV ENTERPRISE V5.0 PREVIEW EDITION**

*DigiChat rises above competition with introduction of voice and video capabilities*

**ATLANTA, April 7, 2004** – Digi-Net Technologies, Inc., a leader in real-time messaging technology for e-commerce and online collaboration applications, today announced the preview release of DigiChat AV Enterprise v5.0. DigiChat AV Enterprise v5.0 introduces a number of new features such as voice and video communication over IP to an already robust feature set.

Digi-Net has become a market-leader for web-based chat, online collaboration, dating sites, e-learning and moderated webcasts. Many Fortune 500 companies, software developers and fan sites have implemented DigiChat to enhance their Web presence, establish internal communication engines and create online forums to communicate with communities.

“DigiChat AV will fundamentally change the process of building communities online,” said Robert Parker, Digi-Net CEO & Founder. “With the addition of voice and video over IP, people with similar interests on any website can communicate and establish relationships with the power of the human voice and live video.”

**DigiChat AV Enterprise Enhancements:**

- Crystal Clear Voice Chat (VoIP)
- Support for Video Chat (P2P)
- Web-based Instant Messaging Support
- Completely Brandable “Ensemble™” GUI
- New Client-side Plug-in Architecture (extensible programming API to create new applications within the DigiChat platform)
- Integrated Instant Messaging Application (web-based and locally installable on desktop)
